

PRESS RELEASE

20 to 22 June 2016 in Winterthur/Zurich, Switzerland

Strategic Partnership with International VPET Congress 2016

Zurich, 17 September, 2015 – SkillSonics enters into a strategic partnership with the International Vocational and Professional Education and Training Congress which will be held from 20 to 22 June 2016 in Winterthur/Zurich (www.vpet-congress.ch). SkillSonics offers programs and courses for entry level and continued education and training to companies and institutes in India. As a global ambassador of the Swiss vocational education and training system, SkillSonics supports the Congress with its expertise.

„We are very happy about this partnership. Our company underscores in practice Switzerland's position as a leader in professional and vocational education and training in the world, and we support the Congress with our experience and know-how in good practices of host companies and institutes" says Franz Probst, Founder of SkillSonics India Pvt. Ltd..

About SkillSonics

SkillSonics, Bangalore and Zurich, is a provider of training and education on the basis of the Swiss dual track Vocational Education and Training System. The company provides courses und training aids, training and certification of trainers and experts, quality control and support regarding the establishment and management of trainings centers. It also validates that the learning outcomes of the courses are met; through rigorous assessments.

A growing number of companies and institutes in India draw advantages from SkillSonics' services. So far over 4000 have been trained and certified – with the target to reach 1 million until 2022.

SkillSonics has signed exclusive long-term cooperation agreements with Swissmem (the organization of the Swiss Mechanical and Electrical Engineering Industries) and the Swiss Vocational Education and Training Institute (SFIVET). SkillSonics is a partner company of the National Skills Development Corporation (NSDC), it works with many of the Sector Skills Councils, and it cooperates closely with CII and FICCI. Well-known companies and institutes in India such as GMM Pfadler, Rieter, ABB, Holcim, Bühler, Burckhardt Compression, Bobst and EFD Induction profit from SkillSonics' training offerings.
